This gives me chills whenever I read, especially "Think and Grow Rich", which is one of my favorite books of mine.

What book is it?

Today I am going to talk about a famous book which is read by almost all book lovers, it is none other than Harry Potter. There are a total of 7 Harry Potter books in the series. Harry Potter and the Philosopher's Stone is the first book. I got this book on my 11th birthday from my dad and after that, I completed seven books and read it repeatedly due to my craze for its storyline.

The book is about a magic story, good vs evil in which the evil is represented to be too strong for the boy. It's about a boy and his journey of becoming an adult in an adventurous way of living after magic came into his life.

After I received the first book as a gift, I bought all the books and completed the whole series. The storytelling and the progress of the story are just perfect in this book and the author has written this book in the most perfect way possible. What book is it?

The title of the book on which I would like to talk today is "Forge your future". It was first published in October 2014 and as such has been hailed worldwide as one of the best motivational books of all time. The main reason why I read is Mr. Kalam, as he is the pioneer of rocket science in India and I have also been interested in this field from an early stage of my life.

What book is it about?

It is no exaggeration to say that this book is a complete package or encyclopedia of all kinds of problems, from the individual to the national level. Mr. Kalam gave practical solutions to every problem based on his own experiences and struggles. The book has shown Mr. Kalam from a simple boy of a middle-class family to becoming a rocket scientist and then becoming president of India. The struggles and the way of life one should follow to succeed in life are shown perfectly in this book.

Why do you like the book?

The first and foremost reason why I like this book is it is Dr.APJ Abdul Kalam's biopic. I admire his personality. After becoming the president, he also lives a normal life and doesn't have any type of attitude toward talking to the regional people. In this book everything which is mentioned can change one's life completely as the aura of Dr.kalam is completely different.

Conclusion

Finally, I would say that others should read this book to get motivation in the life of doing something extraordinary that no one has done yet. I have read this book 3 times till now to get rid of the bad things happening around me.

What book is it about?

My friend informed me about this. He said that this book is full of inspiration. So I wanted to buy it. I felt quite successful after reading this book because it became a complete idea incorporating one person's reviews and views on many subjects. After reviewing this book, I concluded that it no longer contained vulnerable attempts at storytelling, but rather one-line thoughts with a jumble of stories. As the name suggests, 's strength in being yourself means that a single line can also tell a specific story about a person.

Why do you like the book?

This book became 389 pages long and contained about 1274 sentences or we can say about 89 human memories. The whole spirit defined the wonder and opinions of a child, younger, older, women and men. I have to say that this book allows you to understand the thoughts of a person you meet every day.

Conclusion
