Dear Admission Committee/ Dean of Admissions,

I am (Referee's name), and I am the (Principal/professor) at the University (name of the university). I have known the applicant, Ms (applicant's name) for the past (number of years) years, ever since she joined this university. I am delighted to recommend (applicant's name) for the Master's Program at your University.

I have taught (applicant's name) the subject (subject name) in the year/semester (year/semester name), and based on my association with her, I have inferred that she is an excellent student, and is one of the best I have come across. She has always performed to her full potential and capability throughout her tenure at our University.

(applicant's name) has consistency and has maintained very good grades throughout her tenure at this university. She scored a GPA of 4.0 last semester, which put her among the top 10% of the students in our University. She is always on time to classes and has always submitted her assignments and term papers before deadlines.

I have often noticed that (applicant's name) always starts fruitful and intriguing discussions in the classroom, from which her peers also gain immensely. I'm delighted to have had the chance to work with such a bright and talented student. Despite having strength in computer science, she also displays an interest in subjects like physics and math. Her curious nature has urged her to study and understand engineering concepts and ideas far beyond her level. Her innovative mind led her, and other 5 of her teammates to set up a platform where students could post their academic queries on various topics. This platform was extremely helpful for the students and made our school study system more efficient.

In conclusion, I would like to say that considering (applicant's name)'s urge to achieve the best in whatever she undertakes, I believe that she is one of the ideal candidates for pursuing a master's degree at your esteemed university. Thus, I provide my wholehearted recommendation for his candidature. Please feel free to contact me in case of any further queries about him or regarding this recommendation.

Yours sincerely,
