

Sample SOP for Australian Student Visa

I am (*NAME*) a resident of (*CITY, COUNTRY*) drafting a statement of purpose seeking an Australian Student visa to pursue higher studies abroad. My father is into farming and I am a single child of my parents. Coming from an agricultural background I was always curious to learn new techniques to yield better results. The scope of education and the practical exposure made me choose this field as a career option.

I have done my schooling and intermediate from the ABC group of schools affiliated by the state government of (*STATE NAME*) with a good CGPA score. Thereafter to pursue higher studies I appeared for ICAR all India entrance exam and secured a good score to get admission to undergraduate.

I pursued my graduation with agricultural science honours from BHU University with a good academic performance. During my undergraduate years, I participated in extracurricular activities like volleyball that helped me to improve my fitness, leadership and team coordination skills. I played for the XXX State Sports Authority and our team stood as runners up in the finale. This graduation study has exposed me to various aspects that are interconnected with this stream and taught basic principles to be followed for a healthy agriculture.

Holding a graduation with a good CGPA score of 7.5 I applied for internships to various companies to excel my skills further. I did my internship at XYZ research institute under the guidance of agricultural scientists. The knowledge and experience obtained after doing this internship has contributed to both my personal and professional learning. It worked as a catalyst in deciding further to polish my proficiency and expertise.

With a keen interest in becoming part of the agricultural industry I believe pursuing masters is the best way to chase my passion and aspiration. This course will equip me with necessary knowledge and skills required in building my career internationally.

Globally reputed organisations, incredible nature, top class infrastructure attracted me towards the country for pursuing higher studies. The universities in Australia are eminent and Master's in agricultural science is the one of the finest courses offered. The country's warm welcoming nature to the international students made me choose it first on my priority list.

After a thorough research I decided to study at XYX University under the guidance of esteemed faculty holding industrial experience for more than a decade. On top of that the provision of industry based learnings, internship opportunities along with professional development workshops to make them industry ready.

The specialised skills and knowledge developed through studying will enable safe practices in the industry promoting sustainable growth. Taking all my documents into consideration, if given a chance granting my visa that would enhance my career in the right path to achieve the goal I dreamed of.
